01 · OUR OVERVIEW

Why this plan, and why now

Dear business owner, most businesses don't struggle online because of a bad product. They struggle because the right customers never find them, or find them and leave without buying.

This proposal shows how we'll fix that over six months. Month one builds the foundation: a fast website, your Google Business Profile, your social pages, and tracking that shows where every sale comes from.

From month two, we put that foundation to work with SEO, content, social media and paid ads. We move budget to whatever brings you customers, and stop what doesn't.

You'll always know what we did and what it brought in. Every month you get a plain-language report on rankings, visitors, leads and sales.

03 · PROOF OF WORK

An online store: from launch to \$122K in sales in 7.5 months

A US e-commerce delivery store started selling online in July 2022. These numbers come straight from its own WooCommerce dashboard. Client details are hidden for privacy.

\$85,396

sales in the first 6 months

\$122,458

sales in 7.5 months

1,859

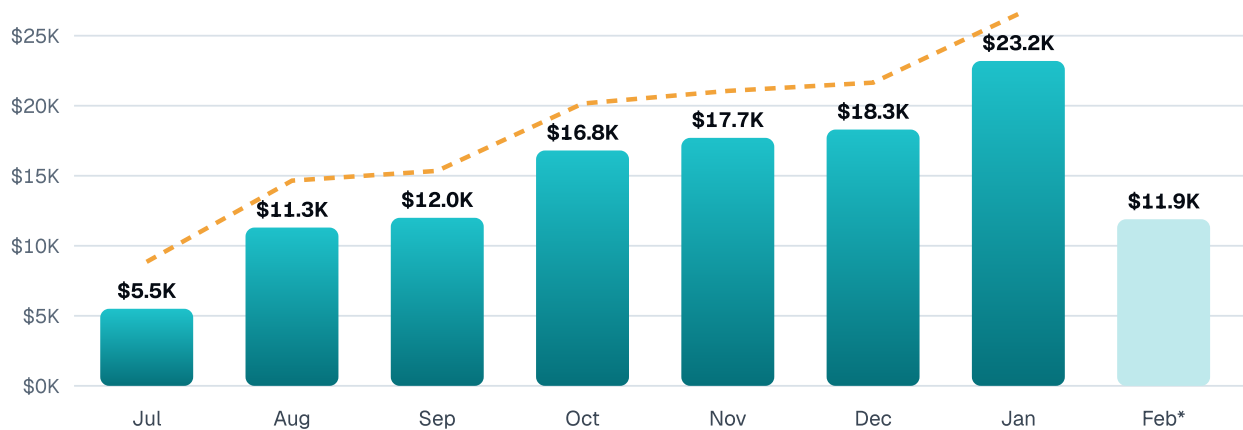

orders placed

4x+

monthly sales growth, Jul → Jan

Monthly sales: up every month

Net sales in US\$ thousands, read from the client's WooCommerce report. *February covers 1–18 Feb only.

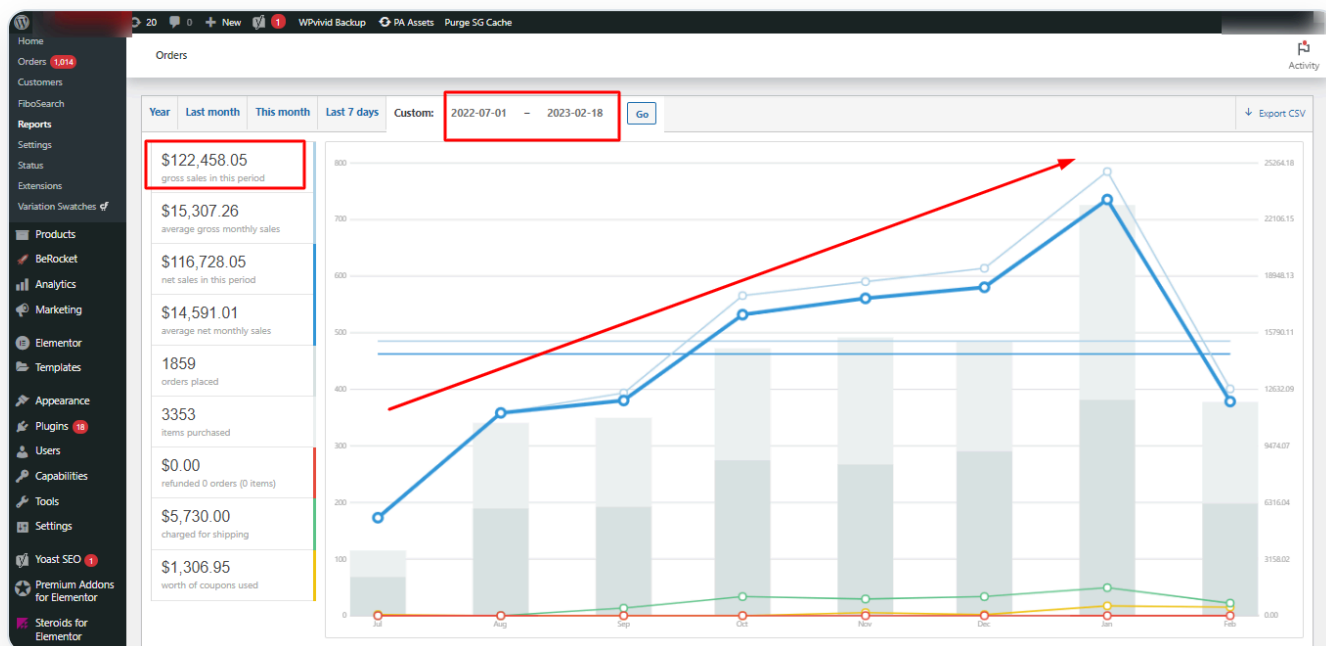

What drove the growth

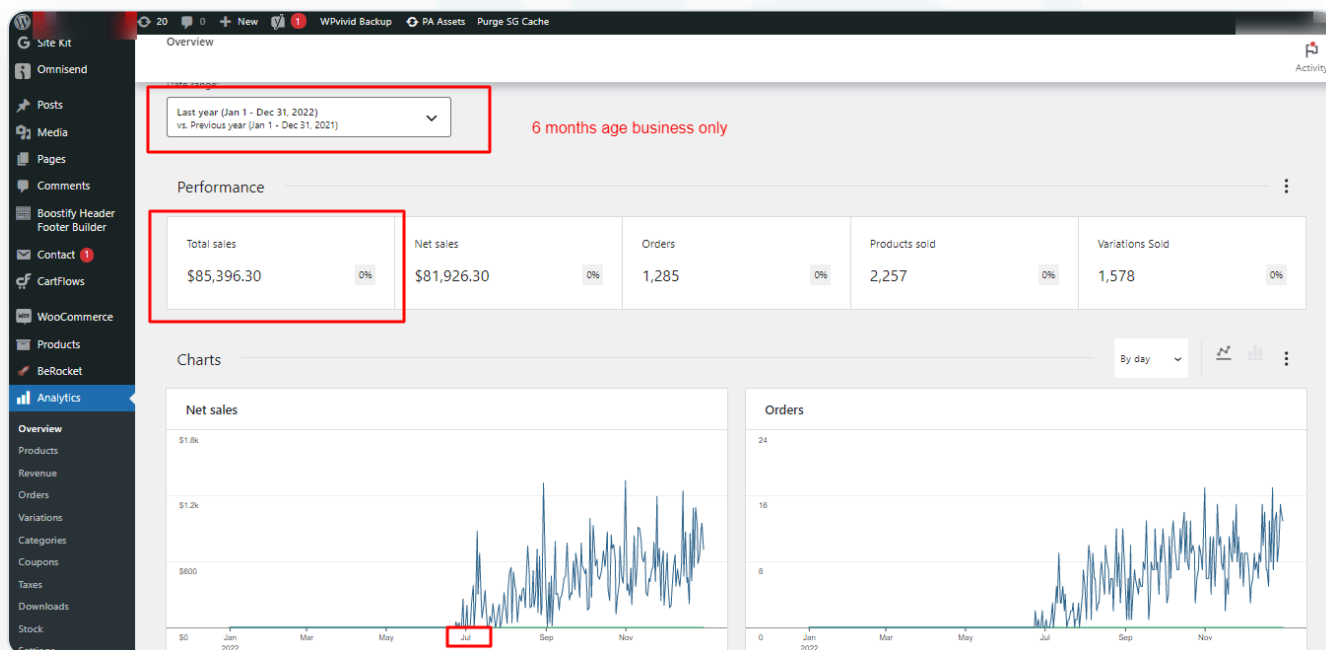

- ✓ E-commerce website built to sell
- ✓ SEO for products and categories
- ✓ Google Business Profile & Local SEO
- ✓ Meta and Google ads, tested and scaled
- ✓ Regular social content and creatives
- ✓ Tracking on every order

03 · PROOF OF WORK

Straight from the client's dashboard

WooCommerce report, 1 Jul 2022 – 18 Feb 2023: \$122,458 gross sales, \$116,728 net sales, 1,859 orders, \$0 refunds.

WooCommerce Analytics, 2022: \$85,396 in sales and 1,285 orders. Sales start in July, the month the store launched.

03 · PROOF OF WORK · ANALYSIS

What these numbers really mean

Higher sales are good. We also check whether the growth is healthy. Here is what the store's own data shows, in simple terms.

What we checked	Result	In simple words
How fast sales grew	about 27% a month	Sales went up every month from July to January: 4x in total.
Average order	\$65.87	Same as before. More people bought; prices didn't go up.
Products per order	1.8	Most customers buy two items at once.
Money kept from sales	95%	Almost nothing was lost to refunds or discounts.
Refunds	0	Not one customer asked for their money back.
Discounts given	1% of sales	Customers paid full price.
Orders per day	about 8	Around 243 orders every month.

What this means for you

1

Growth that builds up

SEO and content keep working after they're done, so results add up.

2

Healthy, profitable sales

Full-price orders and no refunds.

3

A system that works

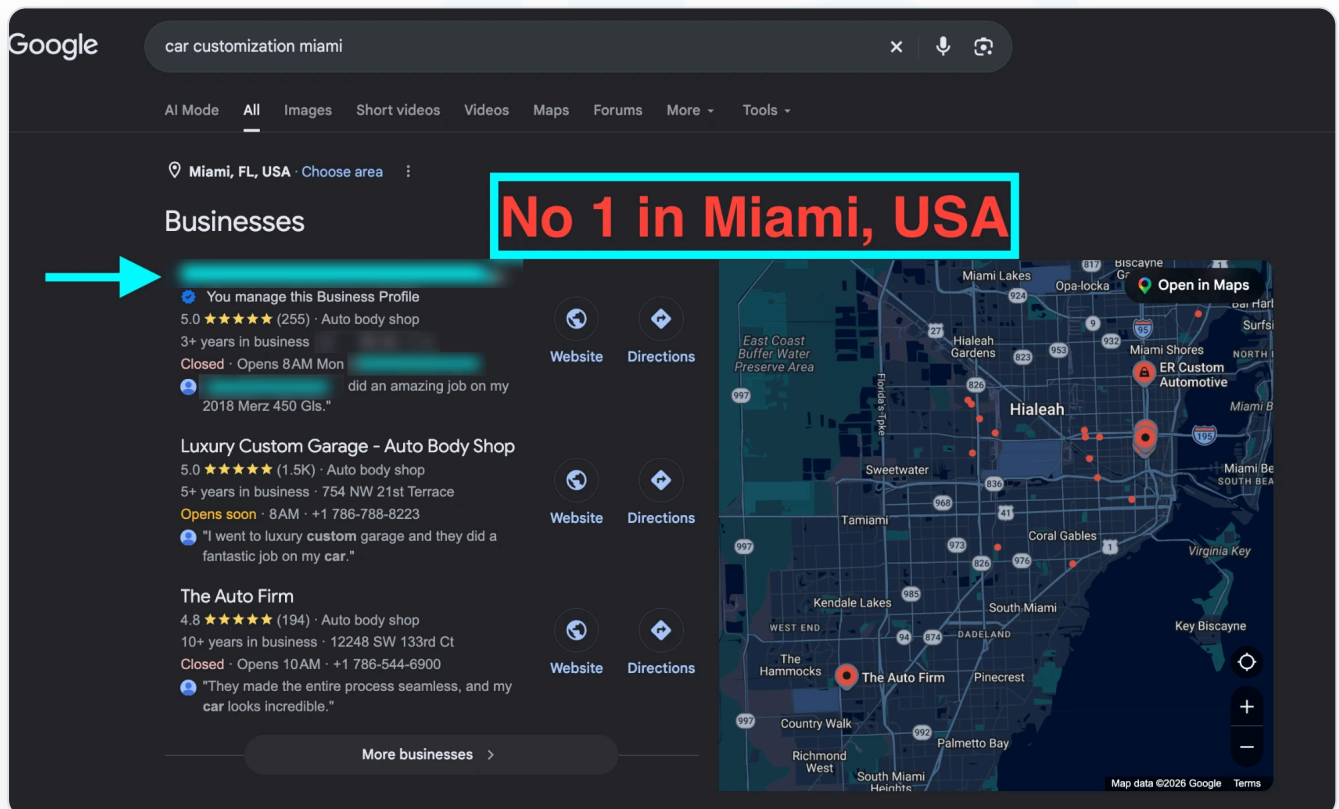

We'll build the same system for your business.

04 · RANKINGS WE'VE ACHIEVED

#1 on Google in three countries

These are live Google results for real clients. Each one is in the top spot of the map results for its main search, ahead of competitors with more reviews and ahead of paid ads. Names and contact details are blurred for privacy.

Business type	City	Google search	Our client's position	What it shows
Auto body & car customizing	Miami, USA	car customization miami	#1 5.0★ · 255 reviews	Ranked above a competitor with 1,500+ reviews
Seafood restaurant	Baltimore, USA	steamed crab shop baltimore	#1 4.5★ · 2,100 reviews	Ranked above a competitor with 3,500 reviews and a paid listing
Removal company	London, UK	removal company in london	#1 map results	Ranked above every competitor and the sponsored ad

"car customization miami": our client is #1 of all businesses in Miami.

04 · RANKINGS WE'VE ACHIEVED

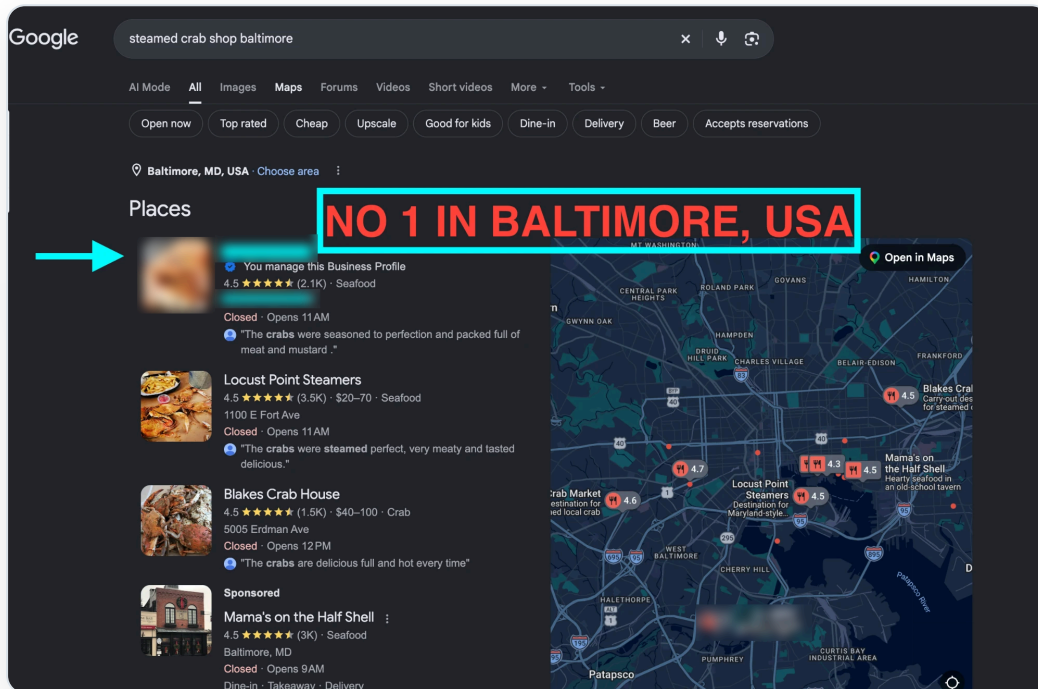

Why the #1 spot matters

Share of clicks by map-results position

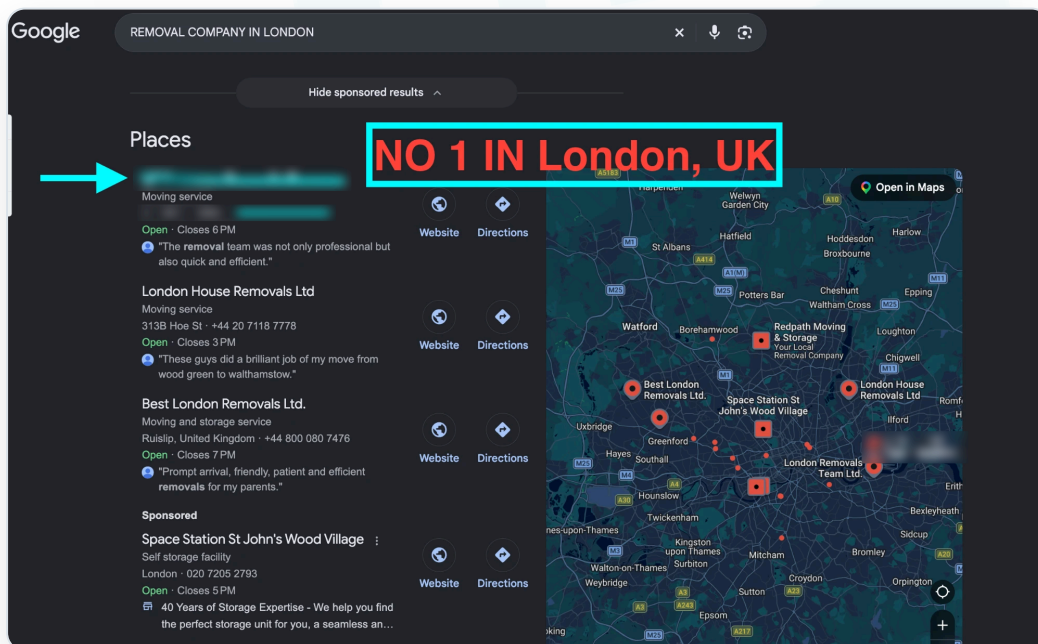

The top three map spots take almost 40% of all clicks. The #1 spot alone gets about 15%. That's where we put our clients.

Source: First Page Sage, Google click-through rates by position, 2026.

"steamed crab shop baltimore": #1, above a paid listing.

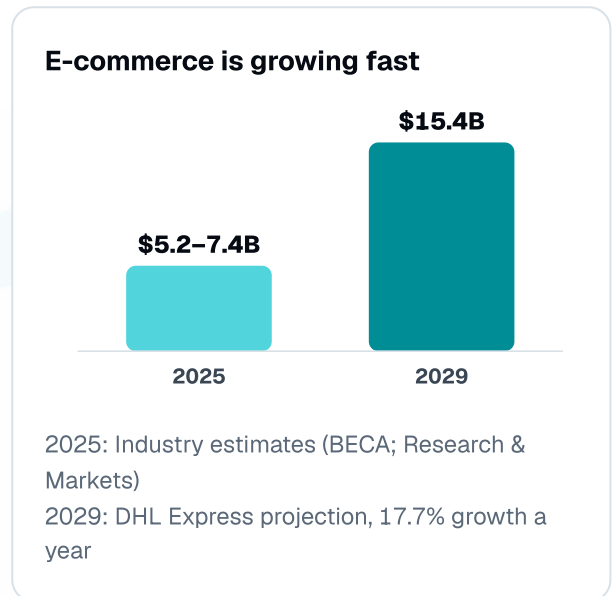

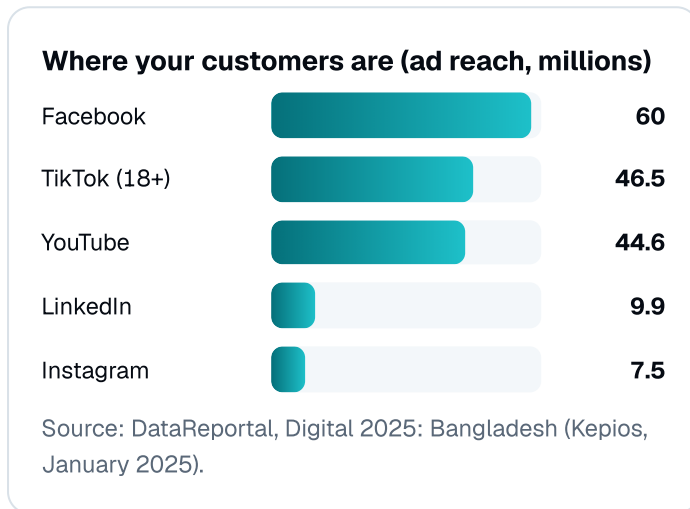

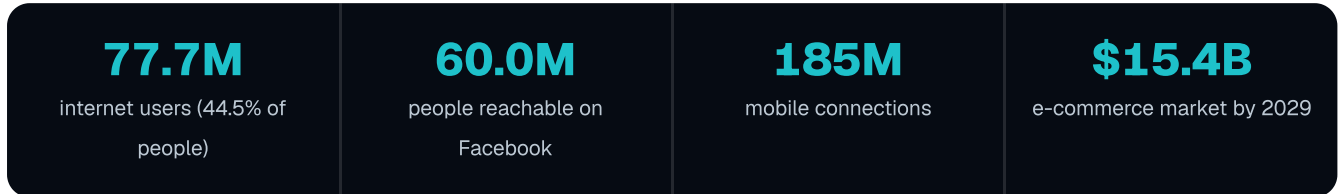

"removal company in london": #1 in the London map results.

05 · BANGLADESH MARKET ANALYSIS

The Bangladesh opportunity, in numbers

Bangladesh has one of the fastest-growing online markets in Asia. Most customers are on their phones, on Facebook, and still only partly reached by local businesses.

Ads cost far less here

	Bangladesh	USA
Cost for 1,000 views (CPM)	Tk 30–230 (about \$0.25–1.90)	\$13–15
Cost per click (CPC)	Tk 5–20 (about \$0.04–0.16)	\$0.50–1.30
\$400 buys about	400,000 views · 3,500 clicks	28,000 views

Sources: KuiperZ (2025), Digitafy (2026), Arafat Labs (2026) for Bangladesh; 7SEA / Triple Whale and Superads (2026) for the USA. 1 USD ≈ Tk 122.7.

05 · BANGLADESH MARKET ANALYSIS

What this means for your business

1

Facebook first, Google for buyers

Facebook builds reach and trust. Google captures people who are ready to buy right now.

2

Video wins attention

TikTok and YouTube together reach 90M+ ad audiences. Short videos are no longer optional.

3

Trust closes the sale

Reviews, real photos, WhatsApp and cash on delivery turn visitors into buyers in Bangladesh.

4

AI search is changing clicks

Google's AI answers cut clicks to normal results by up to 58% (Ahrefs, 2026). We optimize for AI answers too.

5

Seasons matter

Ad costs rise in Eid, Ramadan and sale seasons. We plan budget and content ahead of them.

6

Room to grow

Only 44.5% of people are online today. Businesses that build their presence now will own their category later.

What business owners actually need

More customers

Orders, calls and messages, not just likes.

One team

One contact for website, SEO, ads and content.

Clear numbers

Know what every taka of ad money brings back.

Consistency

Fresh posts and videos every week, without chasing anyone.

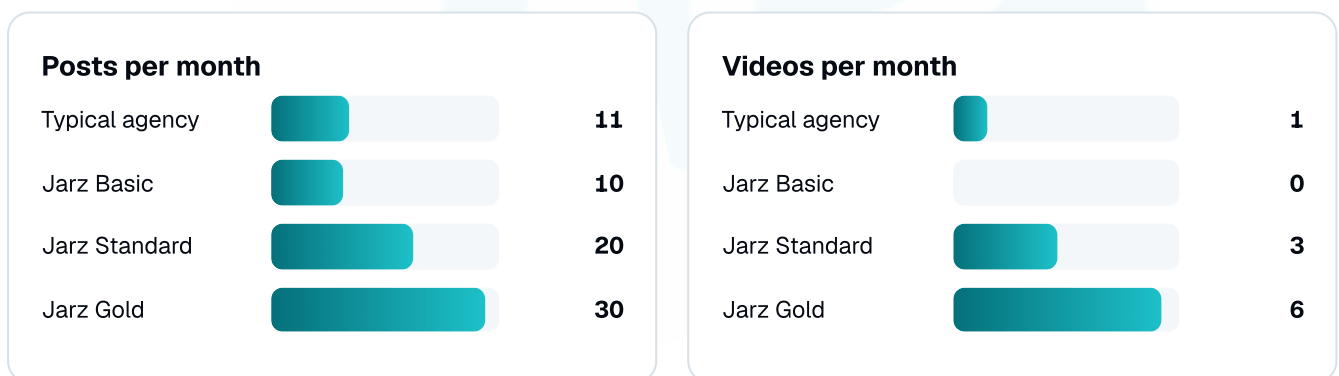

06 · AGENCY COMPARISON

What clients need, and what most agencies give

We reviewed the public social media packages of several Bangladeshi agencies. Most sell a set number of posts. Business owners need customers. Here is the difference.

	Typical agency package	Jarz Digital
Social posts / month	About 10–12 (often 3 a week)	10–30 by package
Videos / month	0–1 motion graphic	Up to 5 + 1 premium video
Website	Separate project	Included , plus monthly updates
Website SEO & Local SEO	Usually extra or not offered	Included : 100% manual SEO
Ad management	Often just post boosting	Real campaigns : testing, reminder ads, scaling
Tracking (Pixel, GA4)	Rarely set up	Full setup in Month 1
AI search optimization	Not offered	Included in Standard & Gold
Monthly report	Likes and reach	Sales, leads and cost per sale
Team	Often one freelancer and a junior	6 specialists in 4 countries

Based on public package pages of Bangladeshi agencies (Media BD, Ongshon Digital, Hakeemify, Digital Wit) and Arafat Labs' 2026 pricing guide.

07 · GROWTH STRATEGY

How we'll bring you customers

Four simple steps. Each part of this plan has one job: help people find you, trust you, buy from you, and come back.

STEP	WHAT WE USE	WHAT WE COUNT
1. Find you PEOPLE SEE YOU	Google search & Maps, Facebook and Instagram posts, videos, ads	How many people see you
2. Trust you PEOPLE CHECK YOU OUT	Your website, blog posts, Google reviews	How many visit your website
3. Buy PEOPLE ORDER OR CALL	Easy product pages, WhatsApp & call buttons, reminder ads	Orders, calls and cost per sale
4. Come back PEOPLE BUY AGAIN	Reminder ads, social posts, asking for reviews	Repeat orders and new reviews

What you'll see in your monthly report

Number	What it tells you	Updated
Google rankings	Where you show up on Google	Monthly
Website visitors	How many people visit, and from where	Monthly
Calls & directions	Customers who found you on Google Maps	Monthly
Orders & leads	Sales and enquiries	Weekly
Cost per sale	Ad money needed for one sale	Weekly
Ad return	Sales earned for every Tk 1 spent on ads	Weekly

08 · PROFIT PROJECTION

What a \$300–500 ad budget can bring you

This works for any business that sells online or takes orders, from Tk 500 items to Tk 10,000 products. Here is a worked example with a \$400 starting ad budget. Ads and SEO bring new customers. Repeat customers come back on their own, at no ad cost, because we design your website to bring them back.

Example assumptions

Average order

Tk 500 – 10,000 (table uses Tk 2,000)

Profit margin on products

40%

Repeat customers

Up to 50% buy again, at no ad cost

Cost per click

Tk 16 → Tk 13 as ads improve

Ad conversion rate

1.2% → 2.0% as we optimize

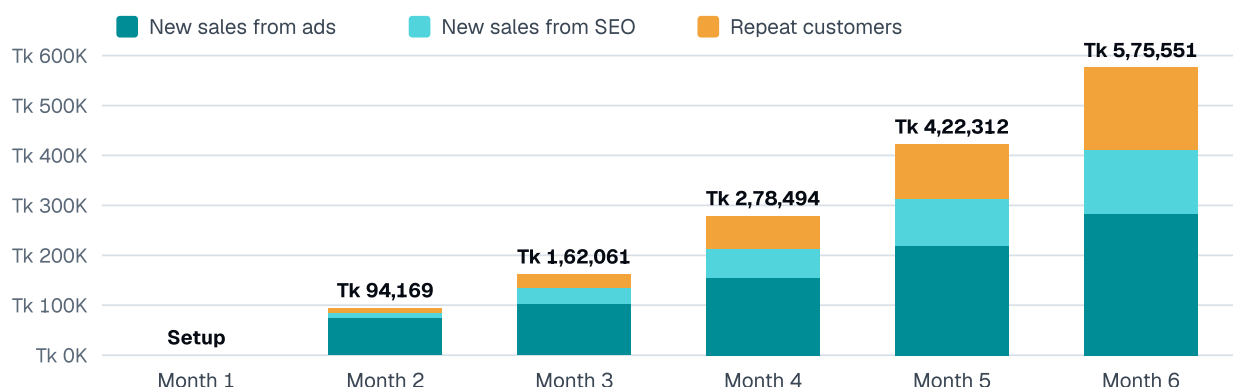

SEO visitors

300 → 3,200 a month

Month by month (Tk 2,000 average order)

Month	Ad budget	New sales from ads	New sales from SEO	Sales from repeat customers	Total sales	Profit after ad cost
2	\$400	Tk 73,608	Tk 12,000	Tk 8,561	Tk 94,169	-Tk 11,404
3	\$450	Tk 1,03,051	Tk 32,000	Tk 27,010	Tk 1,62,061	Tk 9,619
4	\$550	Tk 1,54,226	Tk 60,000	Tk 64,268	Tk 2,78,494	Tk 43,924
5	\$650	Tk 2,20,824	Tk 92,000	Tk 1,09,488	Tk 4,22,312	Tk 89,183
6	\$750	Tk 2,83,108	Tk 1,28,000	Tk 1,64,443	Tk 5,75,551	Tk 1,38,210
Total	\$2800	Tk 8,34,817	Tk 3,24,000	Tk 3,73,770	Tk 15,32,588	Tk 2,69,531

Monthly sales grow as ads improve and SEO kicks in

08 · PROFIT PROJECTION

Works for every business size (Month 6, \$750 ad budget)

The same plan, six different average order sizes. Cheaper items sell to more people and get more repeat orders. Expensive items sell to fewer people but each sale is worth more.

Tk 500 orders

Food, snacks, cosmetics

New orders	360
Repeat orders (free)	360
Monthly sales	Tk 3,59,719
Profit after ad cost	Tk 51,878

Tk 1,000 orders

Accessories, beauty, books

New orders	308
Repeat orders (free)	231
Monthly sales	Tk 5,39,579
Profit after ad cost	Tk 1,23,822

Tk 1,500 orders

Clothing, footwear, gifts

New orders	257
Repeat orders (free)	139
Monthly sales	Tk 5,93,537
Profit after ad cost	Tk 1,45,405

Tk 2,000 orders

Fashion, gadgets, home goods

New orders	206
Repeat orders (free)	82
Monthly sales	Tk 5,75,551
Profit after ad cost	Tk 1,38,210

Tk 5,000 orders

Electronics, furniture

New orders	103
Repeat orders (free)	15
Monthly sales	Tk 5,90,967
Profit after ad cost	Tk 1,44,377

Tk 10,000 orders

Premium products, services

New orders	62
Repeat orders (free)	6
Monthly sales	Tk 6,78,328
Profit after ad cost	Tk 1,79,321

Why repeat customers matter so much: a customer who comes back costs nothing in ads, so almost all of that sale is profit. We build websites that bring buyers back: customer accounts, wishlists, order tracking, saved addresses, one-tap reorder, offers for returning buyers and reminder messages.

6-month totals (Tk 2,000 average order)

Why we can do better than average: international-standard creatives, accurate tracking from day one, and weekly testing. Market averages for Meta e-commerce ads are about 1.9–2.2x return; well-run accounts reach 3.5–5x (Triple Whale, Varos, 2026).

This is an example to show how the numbers work, not a promise. Real results depend on your product, price, margin and market. Small-order businesses make most of their profit from repeat customers, so we build reminder ads and follow-ups into the plan. In Month 2 profit can be small or negative because we are still testing. That is normal: we test first, then scale.

09 · 6-MONTH ROADMAP

Your plan, step by step

Each month builds on the one before. Here is what we do, and what you should start to see.

Month	Focus	Key work	What you'll see
1	Build the foundation	Website, Google Business Profile, 4–5 social profiles, everything connected, Pixel & tracking, ad accounts, competitor & keyword research	Website live Everything set up and tracked
2	Launch marketing	Website SEO, Local SEO, blogs, 10–20 posts, 3 videos, first ad tests (\$300–500)	First visitors, leads and ad data
3	Improve	Keep the ads that sell, stop the weak ones, reminder ads, backlinks, more content	Rankings start moving; lower cost per sale
4	Page 1 push	Content and links on your money keywords and top products	Target Page 1 on Google; top spots for some products
5	Scale	More budget on ads that sell, new audiences, website changes that turn more visitors into buyers	More sales at a stable cost
6	Review & next plan	Full 6-month review and plan for the next 6 months	Clear growth report and next steps

Which work runs when

Content, social media, SEO and ad management run every month from Month 2 to Month 6.

10 · MONTH 1 · FOUNDATION (15–30 DAYS)

Month 1: building the foundation

This is the most technical part of the project, and the part clients rarely see. Many systems must be built, connected and tested before the first taka goes into ads. Done right, every sale after this can be traced to where it came from. Here is all of it, in plain view.

01

Website design & development

- ✓ Discovery, sitemap and page plan
- ✓ Mobile-first design for your brand
- ✓ All pages, products and services built
- ✓ Speed, SSL and security
- ✓ WhatsApp, call, cart and checkout set up
- ✓ SEO-ready structure from day one
- ✓ Tested on mobile, tablet and desktop
- ✓ **Launch: completed within Month 1**

02

Google Business Profile

- ✓ Create or claim, then verify
- ✓ Correct categories, services and products
- ✓ Photos, description and hours
- ✓ Service area and location
- ✓ Review link and Q&A

03

4–5 social media profiles

- ✓ Facebook Page and Instagram
- ✓ TikTok, YouTube and LinkedIn
- ✓ Branded profile and cover designs
- ✓ Same name, bio and links everywhere
- ✓ All linked to the website

04

Tracking & ad accounts

- ✓ Meta Business Manager & ad account
- ✓ Meta Pixel + Conversions API
- ✓ Google Ads + conversion tracking
- ✓ Google Analytics 4 and Tag Manager
- ✓ Search Console (+ Merchant Center for shops)
- ✓ Events: view, add to cart, purchase, lead

days to complete

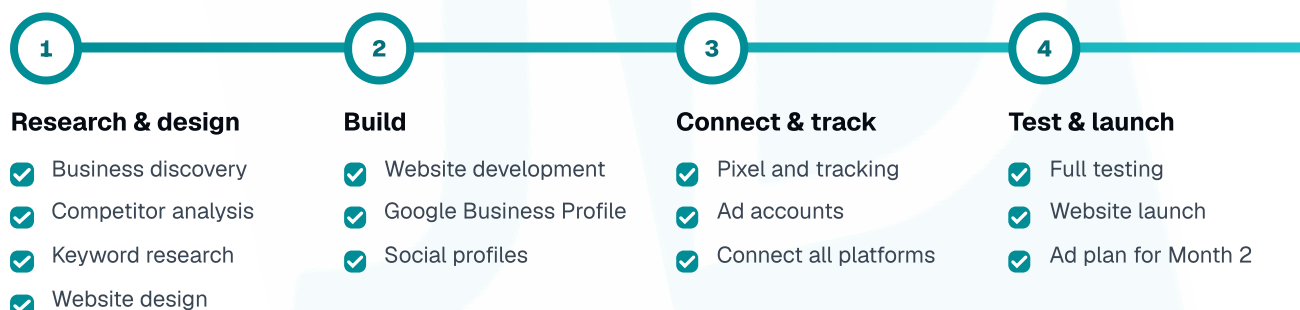

10 · MONTH 1 · FOUNDATION (15-30 DAYS)

How everything connects

Every platform sends people to your website, and every visit, lead and sale is tracked. That shows us which channel makes you money, so the budget goes there.

Month 1, week by week

By the end of Month 1: your website is live, your profiles are set up, and every platform is connected and tracked.

11 · MONTH 2 · CORE MARKETING

Month 2: core marketing begins

With the foundation in place, we start the work that brings in visitors and customers. These deliverables continue every month (shown for the Standard package).

What we do	Each month	Why it matters
Website SEO (on-page + technical)	Ongoing	Helps Google understand and rank your pages
Local SEO	Ongoing	Puts you on Google Maps when nearby customers search
SEO blog posts	4–10 posts	Brings visitors who are searching for what you sell
SEO-friendly images & content design	All content	Loads fast and ranks in Google Images
Facebook & Instagram posts	10–20 posts	Keeps your brand active and builds trust
AI videos (reels / shorts)	3 videos	Short videos get the most reach
Real model video	Optional • extra	A real person showing your product builds trust
Ad campaigns (Meta + Google)	\$300–500 budget	Finds which audiences and ads bring sales

How we test ads in Month 2

1

Test

We try 3–4 customer groups with different ad designs and offers, on a small budget.

2

Measure

After 5–7 days we check which ads bring sales at the lowest cost.

3

Keep the winners

Weak ads are switched off. The budget moves to the ads that make money.

Ad budget is paid directly to Meta and Google and is separate from our service fee. The real model video is optional and charged separately.

12 · SEO WORK LIST

Exactly what's included in SEO

SEO is many small jobs done well, every month. Here is the full list, so you know what you're paying for.

Research

- ✓ Competitor analysis: top 5 competitors' keywords, content, backlinks and ads
- ✓ Keyword research: buyer, product, local and question keywords
- ✓ Keyword-to-page map, one main keyword per page
- ✓ Content gap: topics competitors rank for and you don't

On-page SEO

- ✓ Title tags and meta descriptions
- ✓ H1–H3 heading structure
- ✓ Clean, keyword-friendly URLs
- ✓ Product & category descriptions
- ✓ Image alt text, file names and compression
- ✓ Internal links between related pages
- ✓ Schema: Product, LocalBusiness, FAQ, Review
- ✓ FAQs and clear calls to action

Technical SEO

- ✓ Site speed and Core Web Vitals
- ✓ Mobile-friendly check and fixes
- ✓ XML sitemap and robots.txt
- ✓ Fix 404 errors, broken links and redirects
- ✓ Indexing checks in Search Console
- ✓ Canonical tags and duplicate content
- ✓ HTTPS / SSL and security
- ✓ Monthly technical audit

Local SEO

- ✓ Google Business Profile optimization
- ✓ Weekly posts and photo updates
- ✓ Review plan and professional replies
- ✓ Local citations with the same name, address and phone
- ✓ Google Maps ranking tracking

12 · SEO WORK LIST

Off-page SEO, backlinks and content

Off-page SEO & backlinks

- ✓ High-quality, relevant backlinks every month
- ✓ Guest posts on industry websites
- ✓ Business directory and citation listings
- ✓ Local backlinks (news, associations, partners)
- ✓ Competitor backlink gap analysis
- ✓ Remove or disavow harmful links
- ✓ White-hat only, safe for your website

SEO content

- ✓ SEO blog posts every month
- ✓ Each post targets a researched keyword
- ✓ Written for readers first
- ✓ Custom images for every post
- ✓ Linked to your product and service pages
- ✓ Old content updated as rankings move

When you'll see results

Timing	What happens	What you'll notice
Month 1–2	Foundation built, Google starts indexing your pages	Website live, first visitors and ad data
Month 3	Rankings start to move up	More impressions and clicks
Month 3–4	Main keywords reach Google's first page	Your website on page 1; some products at the top
Month 5–6	SEO and ads work together	More free visitors, leads and sales each month

Timing depends on your market's competition and your website's history. We share rankings every month so you can watch the progress.

13 · MONTHS 3 TO 6

Months 3–6: grow and scale

MONTH
3

Improve what's working

We now have real data, so every decision is based on numbers.

- ✓ Keep ads that sell, switch off weak ones
- ✓ Reminder ads for people who visited but didn't buy
- ✓ Backlinks and the full monthly content plan

Goal: lower cost per sale, rankings moving up

MONTH
4

Push to page 1

Content and links focus on the keywords and products that make you money.

- ✓ Strengthen top product and service pages
- ✓ More backlinks to priority pages
- ✓ New ad designs to keep ads fresh

Goal: page 1 on Google, top spots for some products

MONTH
5

Scale what's proven

If the ads are profitable, we raise the budget step by step.

- ✓ More budget on the best campaigns
- ✓ New audiences and lookalike audiences
- ✓ Website changes that turn more visitors into buyers

Goal: more sales at a stable cost

MONTH
6

Review and plan ahead

A full review of six months of work and results.

- ✓ 6-month report: visitors, rankings, leads, sales
- ✓ What worked and what we'll change
- ✓ Plan and budget for the next 6 months

Goal: a clear picture of growth and the next step

15 · AD BUDGET & WHAT'S INCLUDED

Ad budget: you decide, we make it work

You choose your ad budget. We recommend starting with \$300–500 a month, then raising it only when the ads are already making a profit.

Month	Suggested budget	Rule
2	\$300 – \$500	Test: find the best audience, ad design and offer
3	+20–30% if profitable	Move budget to the winning ads
4	+20–30% if profitable	Grow the winners, add reminder ads
5	+20–30% if profitable	New audiences, more products
6	Based on results	Set the budget for the next 6 months

If results are weak, we don't raise the budget. We fix the ads first.
